It's Pub-O'-licious!

Matteo's Public was founded on the belief that only through the success of our community will we prosper. Because of this belief, we are committed to supporting our local farmers and ranchers and giving back to our community by hosting fundraisers. Additionally we offer organic ingredients when possible.

Our further commitment to our community includes conducting business in a sustainable manner. We use napkins made from recycled paper, a more sustainable method than using cloth napkins which are washed and dried after each use. Also, we compost all of our waste including our meats, recycle our used oil and are committed to keeping our patio chemical free. From our dishes to our décor, we built this business as much as possible using recycled materials or by reusing existing items. We appreciate your business and hope you make Matteo's Public your Cheers ...
